

JULY GARDEN TASKS

Fruits & Vegetables

- Water deeply every 4-7 days
- Harvest fruits and vegetables as they ripen
- Weed as needed, adding mulch to hold in moisture
- Start planning for the fall garden, starting seeds as needed
- Keep an eye out for pests, using organic measures as needed
- Keep training tomatoes and checking for blight
- Prune raspberry canes after harvest.

Flowers

- Keep shrub/flower beds evenly moist (deep water + mulch)
- Keep staking tall flowers as needed
- Deadhead flowers, especially roses to keep blooming
- Cut back perennials that will rebloom in fall
- Pinch back chrysanthemums and asters

Other Tasks

- Water lawns 1-inch per week
- Dig and replant spring blooming bulbs if needed
- Enjoy your garden!

Notes
